Mileage:	Gearbox (manual/auto):	Engine CC:	Fuel type:
----------	---------------------------	---------------	---------------

D. Registration Value

Uploading supporting documents issued by an authority from another Member State

Where once-only is implemented

I allow you to get the certificate directly from the French authority

A key element to enable cross-border access to online procedures: supporting evidence in electronic format

- **Option 1: the user submits the evidence in electronic format**

⇒ Scope: procedures in the fields of annex I

⇒ Process:

- The user submits the evidence in electronic format
- The host MS authority can check the validity of evidence submitted by the user by getting in touch with the home MS

⇒ How: use of IMI system

- **Option 2: the authority handling the procedure gets the evidence from the authority that holds it**

⇒ Scope:

- ⇒ For the requesting authority: 13 procedures in annex II + Services, Professional qualifications and Public procurement procedures
- ⇒ For the authority holding the evidence: authorities holding evidence in electronic format

⇒ Process:

- Process launched by a request of the user
- The authority handling the procedure gets the evidence from the authority that holds it (or accesses it)
- The user has the possibility to preview the evidence to be exchanged (to be used – dep. legal basis)
- Confidentiality and integrity of the evidence
- Evidence limited to request + purpose
- Fees?

Next steps

- COMPET Council – 30 November
- Parliament: draft report (21/11), report adoption (22/02/18)
- Adoption of the Regulation: 2018

- Adoption of implementing acts (incl. specifications of the technical system for once only)

- Development of IT tools (by the Commission in cooperation with MS) => beta version of the gateway

- Launch of the gateway

Using the experience of TOOP, SCOOP4C, and further supporting studies
