CONFERENCE ON THE ONCE-ONLY PRINCIPLE FOR CITIZENS AND BUSINESSES

28th November 2017

09:00 - 15:00

Orangelab, Ernst-Reuter-Platz 2, 10587 Berlin

Location on Google Maps: <https://goo.gl/t9YyDY>

Supported by NEGZ - Nationales E-Government Kompetenzzentrum

Funded by the European Union

OBJECTIVES

With regards to public sector digitalisation the once-only principle (OOP) aims at collecting information from citizens and businesses only once and at enabling public administration bodies to internally share this information - even across borders - to avoid duplication and to reduce administrative burden.

The conference on the once-only principle for citizens and businesses is a joint event of the two EU funded projects SCOOP4C and TOOP. Both projects investigate the implementation of the OOP in Europe on a cross-border level; while SCOOP4C is analysing how the OOP can be implemented in public services for citizens, TOOP will pilot OOP implementations for businesses.

The conference aims at creating awareness about the importance of the OOP for administrative burden reduction. It will demonstrate the findings of SCOOP4C and TOOP over the first year and showcase cross-border OOP solutions for citizens and businesses. In subsequent group discussions, participants and speakers will investigate how the presented cross-border OOP solutions can be disseminated across Europe to foster once-only implementation, and what drivers, enablers but also barriers they had or still have to face to exploit the full potentials of OOP in dedicated domains.

TARGET AUDIENCE

Participants from public administrations, federal, regional and local government and practitioners from companies, who all have responsibility in planning and implementing OOP solutions in their environments. Academia working in the field and acting as multiplier to transfer OOP concepts and solutions.

REGISTRATION

The participation is free of charge but the number of places is limited, so please register either via website (<https://scoop4c.eu/contact>) or via email (scoop4c@uni-koblenz.de). Please note that by registering for the event you agree that photos and videos of you being taken during the event will be used for dissemination purposes.

NEGZ conference (in German) follows on the subsequent day.

08:30 - 09:00	Arrival of the participants and morning coffee
